Dear Chris

I just wanted to write and say how impressed we were with the speed and quality of the installation of our new curtains and sound and lighting systems by School Stage.

This will be our first Christmas where the parents will actually be able to hear the Nativity services and enjoy a much more professional production, thanks to the new equipment.

We greatly appreciate your help and advice in putting together a very tailored and workable package for our school and would have no hesitation in recommending School Stage to others.

Kind regards

Lisa Sharp
