

SCHOOL STAGE

LIGHTING ■ SOUND ■ AUDIO VISUAL ■ INSTALLATIONS ■ HIRE ■ MAINTENANCE
PRIMARY & SECONDARY SCHOOLS ■ COMMUNITY HALLS ■ PLACES OF WORSHIP ■ COLLEGES & UNIVERSITIES

Please get in touch if you need any of the following:

- Stage and Atmospheric Lighting
- Sound Systems
- Audio Visual Installations
- Staging, Curtains and Tracks
- Maintenance and Training
- Hire and Technical Support

Whatever your needs, School Stage will transform spaces to enhance performing arts, improve presentation and enrich learning. We are here to make a difference.

When it comes to performance, we make sure you have the lighting, sound and equipment for your stars to shine.

If you need something different, like an activity centre or drama space for children with special needs, we will install subtle and immersive LED lighting to turn a bare room into a warm and sympathetic space.

At **School Stage**, we offer advice before you make any decisions, and we will not only install but maintain all your equipment to help you make the most of it.

Here's what Lynn Willis, Assistant Head Teacher, Sir Thomas Abney Primary School, had to say:

“ We can use our new facility in so many ways: school events, staff training and it's transformed our assemblies. We can also use it as a teaching resource. It's made an incredible difference. **School Stage** are really easy to work with – they even came in to do some bespoke training with our children. ”

Many of our clients want different things at different times – which is why they appreciate working with **School Stage**. We can hire equipment for one-off events, or create a permanent performing space that can be maintained and adapted as required.

Installations can be as simple or as sophisticated as you like - from a single button to operate a theatrical lighting system to a fully integrated sound, lighting and AV system controlled via iPad.

What we do for schools of all kinds we can also provide for places of worship, colleges, universities and community halls.

Just tell us what you need, and we'll talk you through the options.

“The things we can do now mean the possibilities are endless. We have school musicals, concerts, galas, awards ceremonies and special events. Everyone who comes to see this performance space is instantly impressed.”

Tyrone Lowe, Music Teacher, Gladesmore Community School
